Cy / of
16 December 1957

MEMORANDUM FOR: Project Director of Administration

SUBJECT : 1957 Income Tax Returns, Pilots

REFERENCE : SAPC-22031 dated 3 December 1957

25X1A9a

1. This office agrees with your suggestion of utilizing the services of [REDACTED] in assisting the pilots in the preparation of their 1957 covert income tax returns and 1958 declaration of estimated tax. These fellows have few, if any, complicated legal problems concerning taxes which places their problems into the field of accounting and process.

2. The records of Project-paid salaries and taxes withheld are maintained in the Office of the Project Comptroller. Most of the figures required to file each pilots' returns is readily available and need only be incorporated with overt income and tax withheld or paid to prepare the 1957 income tax returns.

3. It is felt that the contractor types should handle their own income tax returns. If problems should arise, these can be relayed to the respective companies for advice by their legal departments. This is especially desirable insofar as state income tax problems are concerned since it is unlikely that any two jurisdictions (state tax laws) are alike.
